

AMSOIL Gasoline Additive

AMSOIL Quickshot® is formulated to thoroughly clean varnish, gums and insoluble debris in two- and four-stroke gasoline-powered small engines and powersports equipment fuel systems, restoring peak performance. It effectively addresses performance issues related to ethanol, water and dirty pump gas, stabilizing fuel between uses and during short-term storage periods.

Smaller, more efficient engine designs in modern powersports equipment result in more power as well as in an increase in performance-robbing friction and heat. Inferior oils quickly break down and lose viscosity, leading to deposit formation, plug fouling, accelerated wear and poor performance.

AMSOIL synthetic two- and four-stroke motor oils reduce friction and heat in powersports equipment. Their ability to deliver superior performance and protection is universally recognized by casual enthusiasts, dedicated riders and professionals worldwide.

AMSOIL Synthetic 2-Stroke Oils

INTERCEPTOR® Synthetic 2-Stroke Oil is engineered specifically for hard-ridden snowmobiles. Its anti-scuff/anti-wear formulation provides excellent lubricity and cleanliness properties. INTERCEPTOR prevents piston scuffing, ring sticking and exhaust-power-valve sticking (visit www.amsoil.com/proof for details).

DOMINATOR® Synthetic 2-Stroke Racing Oil features a robust formulation engineered to reduce friction and protect pistons and bearings subjected to the rigors of racing and hard driving. Use wherever API TC oils are specified.

HP Marine™ Synthetic 2-Stroke Oil is excellent for all two-stroke outboard motors, personal watercraft and anywhere NMMA TC-W3 oils are specified. HP Marine is engineered with custom-designed synthetic base stocks to reduce friction and wear and is fortified with MAXDOSE™, a system of advanced additives for "super-clean" operation. HP Marine prevents piston skirt scuffing, cylinder bore scuffing and ring sticking (visit www.amsoil.com/proof for details). It provides low smoke, low odor and low aquatic toxicity.

AMSOIL Synthetic 2-Stroke Injector Oil offers reliable wear protection, engine cleanliness and cold-temperature performance for two-stroke snowmobile engines, outboards and other recreational equipment requiring NMMA TC-W3 and API TC two-stroke oil. It provides quality and affordability for cost-conscious enthusiasts who want the benefits of synthetic two-stroke oil and the convenience of one oil for all seasons.

AMSOIL Synthetic Motorcycle Oil

AMSOIL Synthetic Motorcycle Oil provides long service life and maximum protection against engine wear. Its shear-stable formulation offers exceptional protection for high-performance engines, transmissions and primary chaincases. AMSOIL Synthetic Motorcycle Oil is available in 10W-30, 10W-40, 20W-50 and SAE 60 viscosities and is wet-clutch compatible. Recommended for Harley-Davidson, Victory, Indian, Honda, Buell, KTM, Ducati, Triumph and many other motorcycle applications.

AMSOIL Formula 4-Stroke® Synthetic Motor Oils

AMSOIL Formula 4-Stroke Synthetic Power Sports Oil features a broad 0W-40 viscosity rating that provides superior hot- and cold-temperature protection in recreational four-stroke motors, including ATVs, UTVs, dirt bikes and snowmobiles. It reduces wear and contains no friction modifiers for excellent wet-clutch compatibility.

AMSOIL Formula 4-Stroke Marine Synthetic Motor Oil is formulated to provide exceptional wear protection and excellent low-temperature fluidity for four-stroke gasoline-fueled marine engines. It also guards against rust and corrosion. Certified to meet NMMA FC-W performance specifications, it meets "Warranty Certified" status of engine manufacturers and is recommended in outboard motors including Honda, Yamaha, Mercury, Johnson-Evinrude and more. It is excellent in marine inboard motors including Mercury (MerCruiser) OMC, Volvo-Penta and more. Available in 10W-30 and 10W-40 viscosities.

AMSOIL Formula 4-Stroke Synthetic Scooter Oil is engineered to provide maximum wear protection and friction reduction in today's high-tech air- and water-cooled four-stroke scooters for long equipment life. Its friction-modifier-free formulation ensures wet-clutch compatibility and smooth clutch operation.

AMSOIL Accessory Products

AMSOIL Ea® Motorcycle Oil Filters feature full-synthetic technology that provides superior protection for motorcycles, ATVs, four-stroke personal watercraft, snowmobiles and outboard motors. They last longer, stop smaller dirt particles and offer less restriction than conventional filters, helping to extend equipment and filter life and improve performance. Many filters available in both black and chrome.

**WARRANTY
SECURE™**

AMSOIL synthetic 2- and 4-stroke oils are Warranty Secure™, keeping your factory warranty intact. For details, visit www.amsoil.com/warrantysecure.

AMSOIL Shock Therapy® Suspension Fluid

is formulated for maximum stability and performance in high-performance forks and shocks. It is designed to control friction and heat and significantly reduce wear and scuffing. Viscosity remains constant and foam and aeration are kept to a minimum, limiting shock fade and inconsistent dampening. Available in lightweight #5 and medium #10.
